ENITED Survey Solution®

Set the stage. For your success story.

This survey is a self-assessment tool for ambitious and smart destinations and venues who recognize the difference between the market's perception and the reality, and understand the essential need for self-reflection from time to time.

The tool enables convention bureaus and centres alike to check their standards. Always in relation to the future market's needs and demands and to the given high standards of similar organisations and structures in comparable top-notch destinations, which are taken as benchmarks for the development of the survey.

In addition, the flexible design of our solution offers possible steps to evaluate the collected data in more details & depth and increase the significance & value of their results and learnings. Such as adding other stakeholders (clients, local partners and governmental organisations) as additional respondents of the survey or adding further benchmarking elements (on national or European/international scale) in the evaluation of the survey.

The result will provide you with an overview on strengths and weaknesses as well as threats and opportunities, both for each survey participant and the destination as a whole. Neither a convention bureau nor a convention centre alone can be successful if the remaining pieces of the puzzle (in the form of soft and hard facts/infrastructure) are neither in place nor well-functioning.

Following this exercise, you will know how good your standards really are and what you can offer as assets that truly matter when approaching clients to be. You will be able to enhance your stakeholders understanding for the business and the willingness to support your activities. You will have a much clearer picture for what you have to do better or change in order to become or remain a major player in the business events market. And, therefore, you can apply proper methods of solution fitting to their specific needs.
