ENITED Matchmaker Solution® | Going virtual the professional way.

Officially, we advise you. Unofficially, we inspire you.

As a matchmaker, we create a better understanding for the diversity of the business events market. We bring clarity and efficiency to the often time-consuming and complex processes concerning call for & evaluation of tenders. With the aim of finding the best possible solutions or service providers for your business event project.

Our business events industry has been in a transformation process for quite some time. Ways of engagement have changed. Content, structure & formats of business events have evolved. “Live” and “virtual” channels have started to become one ... and then COVID-19 happened.

After a first phase of understanding and coping with the unprecedented situation and the complexity of its consequences, it became clear that COVID-19 acts, first & foremost, as an accelerator of this transformation, and not as its principal initiator.

Our knowledge, our experience and our network. All at your service.

With our partners in the pan-European **27Names** live communication network, we have taken that firm belief to heart and created **virtual engagement solutions**, designed for **today and tomorrow** (the day after COVID-19).

It defines a new generation of **business events** and matches your current likes and future needs as an international event organizer & owner.

Stay connected **and** be relevant for your members and your stakeholders. Create the right mix of **offline & online** engagement tools for your community.

➤ Why invest (now) in this solution?

The future belongs to **SMART associations** who have understood that they are part of communities of common interest rather than of membership organizations only. Those who create benefits by engaging with peers in their fields of knowledge & competences, and not only by serving members.

- ✓ Smart associations need to start engaging their stakeholders in a different way, adapted to the modern times of communication and engagement.
- ✓ It's all about building a whole “community” and engaging your stakeholders more effectively and more individually with a re-defined toolset of live communication, both offline and online.
- ✓ The focus should be on the creation of an engaging “working” environment of exchanging information, sharing ideas, creating new knowledge **and** initiating solution-based action for the individual benefit of every event participant.
- ✓ The COVID-19 situation is not only a serious challenge, but also an enormous opportunity to become an association leader in that transformation process.

➤ **How does it work?**

The solution is designed in a simple 3-step process.

- **Evaluation**

In STEP I, we evaluate any already existing event and communication strategy, e.g.

- Defined target audience & stakeholder groups
- Defined goals & tasks
- Existing online & offline engagement activities, etc.

- **Creation**

In STEP II, based on that evaluation, we find the “perfect match” of competences & skills within our 27Names network, and together create the custom-tailored engagement solution, according to your specific requirements, including

- a newly defined strategy of goals, tasks and deliverables
- the design of the necessary toolset of engagement
- the definition of the corresponding implementation plan

- **Implementation**

In STEP III, our 27Names partner takes the lead in the implementation process, providing the project management, e.g.

- adapting and transforming the event purpose & content into the corresponding event formats (virtual/hybrid/live)
- creating the defined toolset
- arranging the required technology setup & infrastructure
- guiding & supporting you in the whole process of setup & operation

After all, an outstanding result isn’t a coincidence; it’s based on strategic planning and efficient processes. The concept, content, positioning and process planning must all fit together like the pieces of a puzzle.

We deliver a turnkey solution.

➤ **What’s the benefit?**

We see the following main benefits for an international association.

- ✓ **Applying professional strategies & tactics for the off- and online engagement with all stakeholders.**
- ✓ **Using the right mix of professional event platforms and formats (virtual/hybrid/live).**
- ✓ **Building new and stronger relationships across & beyond the “membership” definition.**
- ✓ **Demonstrating new ways of stakeholder engagement.**
- ✓ **Improving stakeholder involvement in the association.**
- ✓ **(Re)Positioning the association, through thought leadership, towards a smart association.**
